*Please include a detailed outline of any pricing and service structure differences.

Fees include service event costs, transportation charges, container charges, processing fees and any other miscellaneous charges as outlined below:

- **Fees** – Fees include the costs for processing compostable waste and supporting operations, including labor, equipment utilization and bin cleaning. Pricing will follow the Pricing Chart provided per service event.
- **Disposal Fee** – In the event of a load significantly contaminated with non-compostable materials, Contractor will charge a disposal fee following the Pricing Chart provided.
- **Scheduled Service** – A service conducted on the specified weekly service days or any additional service provided with prior notice of at least one week.
- **On-Call service** – A non-scheduled pickup requested made within one week
- **Tier 1 Contamination** – Manual removal of contamination that can be removed at time of service and disposed of on contractor's premises
- **Tier 2 Contamination** – Entire bin contents must be disposed of as trash. Bin emptied into vehicle and removed from contractor's facility
- **Tier 3 Contamination** – Glass contamination.
