A. Scope Detail

1. Functional Requirements

Metro will prepare and issue a CAFR which includes the Authority and the Authority desires the Contractor to perform the necessary audit work and express opinions on but not limited to the following:

- **Financial Statements-** The examination of basic financial statements and compliance audit made in accordance with generally accepted government auditing standards. The primary purpose of the audit is to express an opinion on the Authority’s financial statements. The examination includes examining transactions and accounts that support the amounts in the financial statements and includes an overall view of the Authority’s financial statements. The audit procedures used shall be sufficient to enable the proposer to express an opinion on the fairness of the Authority’s presentation of its financial position, results of operations, and cash flows in accordance with U.S. Generally Accepted Accounting Principles. In addition, such procedures should be adequate to determine whether the Authority operations were conducted in compliance with legal and regulatory requirements including Tennessee Statutes, Federal Laws, and Authority policies and procedures.
- **Review of Internal Controls** – The contractor is required to review the Authority internal controls and obtain an understanding of Authority operations in order to properly plan auditing procedures, identify areas of potential misstatements, and assess fraud risk. In addition, the contractor may need to test internal controls to assess the extent the controls can be relied upon in order to reduce testing procedures. Internal control management letter comments and reportable conditions shall be communicated in writing in accordance with Generally Accepted Accounting Principles (GAAP).

- **Management Letter** – A management letter will be issued for each year audited and will report any significant audit findings. The following are some of the significant items that may be noted during the performance of the audit:

The audit report must be completed and filed by July 31. A form 5558 may be filed to extend this deadline, but audit work should be scheduled and completed to ensure the 5500 is submitted well before work begins on the financial statement audit. The cost associated with filing of the 5500 must be indicated in the proposal.

- **Performance of extended audit work** - All additional work shall be documented by memorandums to be approved by the Authority Board. The fee for additional services shall be separately negotiated at the time of the memorandum for a not to exceed amount calculated in accordance with the respondent billing rates itemized in this RFP.

2. **Organization of the Authority**

The preparation of the financial statements for the Authority is under the responsibility of the Director of Finance of the Authority, but the Authority utilizes the financial software and select processes of the Metropolitan Government of Nashville & Davidson County. The Authority, in conjunction with the Metro finance department, manages the annual closing process, the

preparation of the various financial reports, and coordinates the audit engagement. The primary contact will be the Authority's Director of Finance or designee.

3. Reporting Entity

The Authority is a component unit of the Metropolitan Government and is included in Metro's CAFR.

4. Accounting Systems

Certain financial and administrative support is provided to the Authority by Metro through an intergovernmental agreement.

The Authority utilizes Metro's Oracle R12 software for its financial accounting and management system. Various modules of R12 are utilized including general ledger, accounts payable, cash receipts, payroll, and fixed assets. Additionally, the Authority utilizes various other software products to support specific areas with unique needs such as time and attendance, client invoicing/billing, and parking receipts. The information from these other systems are manually interfaced and reconciled to R12.

5. Accounting Process

The Authority utilizes a combination of Metro and Authority specific processes. The majority of accounting transactions originate with the Authority. The Authority maintains ownership and responsibility for the financial records; however, the same transactions are reviewed by Metro's Division of Financial Operations before they are recorded in the accounting records.

6. Accounting Records

The accounting records are maintained and filed at the Music City Center and in the Division of Financial Operations at Metro. Some records are hard copy documents; however, the Authority and Metro are increasingly utilizing electronic records where possible. Currently, electronic images are maintained of invoices supporting payments. Additionally, electronic images are maintained of bank transactions supporting cash receipts.

Detail records for those separately maintained systems such as time and attendance, client invoicing/billing, and parking receipts are maintained within the Authority's Department of Finance.

7. Accounting Structure

The Authority utilizes a traditional fund structure within R12 to record accounting and financial information. Various business units record specific activities within each fund and department, and object accounts record specific types of transactions. The object account structure is consistent across all Authority funds within the R12 system.

8. CAFR and Audit Schedule

The Authority follows the CAFR and audit schedule of Metro, dictated by section 6.15 of the Charter of the Government which requires that the annual audit be completed "as soon as practical after the close of the fiscal year, and

in no event later than four months after the close of the fiscal year.” Accordingly, Metro requires that the audit opinion for all component units be dated by October 31 or prior. Metro will need to be provided with a final draft of the Authority’s stand-alone audited financial statements and footnotes by October 15.

9. Letter of Recommendation to Management

The Letter of Recommendations to Management has historically been prepared by the independent auditors based on observations throughout the audit process. Responses to recommendations are provided by the Authority. The report has historically been printed by the independent auditors.

10. Other Information

Other information such as descriptions of the Authority’s retirement plans, debt, etc., is contained in the CAFR; there have been no substantive changes since publication of the CAFR.
