Subject: Inquiries and Responses
RFP/ITB#: RFP 103-2020

Inquiries and Responses:

- 1. I noticed the proposal is pretty explicit in wanting a dumpster similar to the one you currently use. Are you 100% set on that? We don't currently offer dumpster level service. We use 65-gallon roll carts. Are you open to trying a different method?**

We are looking for a container that can have a tightly sealed lid to prevent smells, insect or rodent issues. In addition, the 65 gallon roll carts would require a substantial amount of containers of this size which is not ideal for the facility.
